On-Site Scanning Process

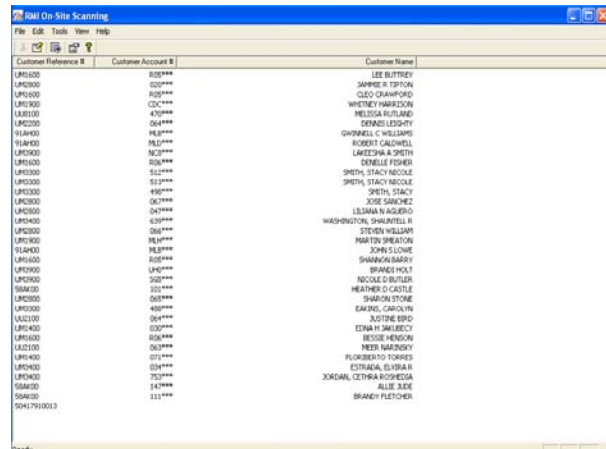

Features

- ✓ Return Mail to Your Site
- ✓ Turn-key Solution
- ✓ Easy to Operate
- ✓ Secure
- ✓ Immediate Results

Whether you print in-house, outsource your print and mail or utilize USPS's address service RMI's patented, automated return mail process begins with the delivery of all return mail back to your location. There it is electronically **READ** by our turn-key workstation and **reAddress** solution provides the best address using RMI's proprietary multiple address database. Transmission of files are encrypted as a standard feature and posted to a secure site, ready for you to automatically update your database.

Benefits

- ✓ Totally Eliminate Data Entry
- ✓ Redeploy Mail Room Employees
- ✓ Reduce Printing & Mailing Costs
- ✓ Improve Cash Collections
- ✓ Improve Client Communication
- ✓ Increase Your Bottom Line
