

RMI To Provide Return Mail Solution For Tenet Healthcare

RMI (Return Mail, Inc.) is proud to announce that Tenet Healthcare Corporation, Dallas, Texas, one of the nation's largest hospital systems, will begin outsourcing their return mail handling to RMI.

RMI return mail services solve the many problems associated with Undeliverable As Addressed (UAA) return mail by totally eliminating the handling, thus saving labor costs. RMI return mail solutions have been proven to have a significant positive dollar impact on businesses.

“When Tenet realized how much money they could save by outsourcing their return mail handling to RMI, they were very impressed,” said T. Alan Ritchie, Jr., president of Return Mail, Inc. “Add to that the fact that we are HIPAA compliant and our relationship was off and running.”

About Tenet

Tenet Healthcare Corporation, through its subsidiaries, owns and operates acute care hospitals and related health care services. Tenet's hospitals aim to provide the best possible care to every patient who comes through their doors, with a clear focus on quality and service. Tenet can be found on the World Wide Web at www.tenethealth.com.
